**Subject:** Welcome to MiCrEx '19!

Hello,

I am so excited that you are interested in exhibiting at the Michigan Creative Expo. As our goal is to grow the creative industry in Michigan and provide an exceptional networking platform, we are trying to make it as easy and accessible to those who wish to exhibit. All we need from you is a little bit more information about what you would like to exhibit to make sure that we get you set up with the right space. More information can be found at the Google Doc link below.

If you are looking to exhibit Room Scale VR and need space for the setup please let us know ASAP as these spaces are limited and we want to make sure to get them locked in.

The Exhibitor Document is a living document so changes may be made between now and the expo.

[Exhibitor Information Document](#)

We look forward to meeting you at the Expo! Feel free to reach out to Jake or myself with any questions. Please feel free to invite your network if you know of anyone who would be interested in exhibiting.

Thank you,

Michael
